EMERGENCY PREPAREDNESS *Table Top Exercise*

PURPOSE

- To increase the participant's knowledge about Emergency Preparedness.
- To provide participants with insight on Emergency Operations Planning.
- To test Emergency Operations Plans to address gaps or needs.

DISCUSSION BASED EXERCISE

A tabletop exercise (TTX) is typically held in an informal setting intended to generate discussion of various issues regarding hypothetical, simulated emergencies. These exercises familiarize players with or develop new plans, policies, procedures, and agreements. TTXs focus on strategic, policy-oriented issues, with facilitators or presenters leading the discussion and keeping participants moving towards meeting the exercise objectives.

Participants work along side law enforcement, fire and emergency medical personnel to work through real-world scenarios to put into practice emergency preparedness and response. They can enhance general awareness, validate and assess plans, procedures and concepts. Generally, TTXs are aimed at building understanding and/or identifying strengths and areas for improvement.

WHO SHOULD ATTEND

Open to all NH faith community participants, first responders and municipal officials. Participants will gain the most value if they have previously attended the 3 hour Emergency Preparedness Seminar.

No cost to attend
