Groton Transfer Station

Construction & Debris

The Town accepts construction and debris from Groton private property owners only. Contractors are not allowed to dump even if the materials are generated from a job that is contracted in Groton. See attendant FIRST before any disposal. Payment of cash or check (payable to the Town of Groton) is done at the time of disposal. Any items or construction material containing ASBESTOS or other HAZARDOUS MATERIAL will not be accepted. You will be responsible for cleanup costs associated with any improper or illegal dumping.

The cost per load is fixed regardless of whether or not the vehicle in question is full. If the vehicle is not a full load, the Transfer Station attendant has been approved to adjust the price. All mixed loads that contain 25% or more of shingles will be charged the shingle price.

Anyone with questions should contact the Transfer Station before bringing the material for disposal.
